

PTFE Casting Film VB-3

Ultra-high temperature vacuum bagging film

PTFE casting film VB-3 is used as the vacuum bagging film. It is recommended for high temperature cure cycles where a good softness and drapability are required.

PTFE Casting Film VB-3 Characteristics

- Ultra-high temperature resistance to 315°C
- High elongation and excellent softness
- Standard color is Natural,Red,Blue

			VB-3
Basic Performance			
Flammability (self extinguishing)	ATP-5034		YES
Mechanical Properties			
Tensile Strength	ASTM D882	MPa	27
Elongation at Break	ASTM D882	%	500
Thermal Properties			
Maximum Use Temperature		°C	315
Product Size			
Width		mm	1270
Thickness			0,003 inch (76µm)
Length			175 feet (53 m)
Weight/roll		kg	11
Color			Blue,Red,Natural

Represent typical performance properties and should not be used for specification purposes.
